In 2021, Budweiser re-released a can with special history behind it. Produced in the 1940s during WWII & decorated in an olive drab, these cans were made specifically for military members serving overseas. In honor of those who serve, Lionel has adapted this classic design to fit our new reefers bodies.

In addition to the Military Heritage Car, we're starting off a series of reefers in HO scale by introducing a Clydesdale-themed car that is guaranteed to be a staple on your layout for years to come.
